

**REMARKS**

The application was amended as indicated above. The amendments to the specification correct typographic or grammatical errors. The amendment to claim 1 corrects a typographic error and avoids a possible antecedent basis rejection for several dependent claims. The amendment to dependent claim 6 corrects a typographic error and avoids an antecedent basis rejection. The amendments to claims 10 and 12 also correct typographical and grammatical errors.

New claim 27 was added to recite the composition prepared by mixing the listed ingredients and is supported in the application as filed, see for example the detailed discussion and the working examples. The amendments were made for the reasons indicated above and to place the application in a better condition for allowance.

Respectfully submitted,

MERCHANT & GOULD P.C.
